> **GO TO FILE → MAKE A COPY**
> **Make sure you delete this page with the requirements below before submitting your report. Leaving them will result in an increased similarity score on Turnitin.**

For each submission, keep in mind the following:

● Make sure you address all the questions in the GWP assignment document published in the orientation module, along with this template.

● To avoid an increase in the Turnitin similarity score, **DO NOT copy the questions** from the GWP assignment document. Copy the question numbers.

● Use the same font type and size and same format throughout your report. You can use Calibri 11 (as this template), Arial 10, or Times 11.

● Do NOT split charts, graphs, and tables between two separate pages.

● Always include the axes labels and scales in your graphs as well as an explanation of how the data should be read.

● Use the MLA format for references, both for in-text citations and works cited at the end of the report. You can find the rules in the Purdue Online Writing Lab.

● Use the LIRN Library for your research. It can be accessed via the left navigation pane inside the WQU learning platform.

● When you submit multiple files, the PDF file with your report must be uploaded **separately** from the zipped folder that includes your other files. This allows Turnitin to generate a similarity report.
